The Islamic Emirate's Effective Diplomacy

in Articles November 16, 2018 197 Views

As is known, some days ago a conference took place in Moscow to find a peaceful solution to the present Afghan conflict. As well the representatives of twelve countries, a five-person delegation of the Islamic Emirate also took part therein which was led by the head of the Political Office of the Islamic Emirate in Qatar, the respected Abbas Stanikzai. He presented the stance of the Islamic Emirate to listeners and talked on such topics as peace, security, good relations with neighbors as well as human rights, the crimes of the foreign invaders and Kabul administration and their corruption among other topics.

The participants of the gathering listened carefully to the Islamic Emirate's stance, commended and collectively considered it an excellent solution for the conflict's end. After the Moscow Conference the representatives of the Islamic Emirate had discussions with various media outlets. They clarified the present situation of Afghanistan and exposed the policies, oppression and corruption of the savage aggressors and Kabul administration. They further rejected the false propaganda conducted and rumors circulated against the Islamic Emirate.

The Islamic Emirate is proud of its representatives for they have ensured that the voice of the oppressed Afghan people reach the international community in the Moscow Conference, as was previously done in other conferences. They exposed the Kabul administration's crimes and oppression, and thus carried out well the role of representing the Islamic Emirate.

The Islamic Emirate's delegation presented its religious and national stance at the Moscow Conference through which the doubts of various countries were removed and it became further clear that it is only the Islamic Emirate which at present truly represents the Afghan people, that it has indeed been successful in obtaining the public's support and is struggling for defending the Afghan people's rights and state sovereignty — such struggle is the human and legal right of any nation which they must not be deprived of.

In the military field the Islamic Emirate has defeated the occupying enemy alongside its enslaved forces on the one hand, and on the other hand it has forced the tired enemy into embarrassment in the political field. Despite the enemy's inaccurate and false propoganda, its censorship and military might, the Islamic Emirate has convinced the world and countries of the region that this noble struggle for our land and the protection of our values is a legal and undeniable right. The Islamic Emirate's diplomacy has crushed the false reasoning for the illegitimate occupation put forth by the imperialistic powers. With criticizing the presence of the barbaric invaders in Afghanistan, important states of the world and region have morally supported the Islamic Emirate's stance.
